

# SonyEricsson W518a

The Sony Ericsson W518a brings music and socializing to the next level. It's accelerometer lets you shake or tilt the phone to fast-forward to the next song or control certain video games. Get great entertainment features including a Walkman® music player. Listen to MP3s, built-in FM radio or subscription music services like Napster and eMusic. Music controls are right at your finger tips while the phone's controls hide out of sight until you need them. Other great features include email, IM, full HTML Web browsing, Facebook application, a 3.2 MP camera and AT&T Navigator for maps and turn-by-turn directions.
