

# Samsung A837

The Samsung Rugby(TM) is AT&T's first rugged Mil-Spec device and it is the only rugged wireless phone that combines the convenience of Push to Talk (PTT) with Video Share Calling. It is ideal for businesses that employ on-site field services that need instant voice access. It is built tough to withstand harsh conditions of all on-site jobs. Certified to Military Standard MI-SID-810F, it will withstand dust, shock vibrations, rain, humidity, solar radiation and altitude and temperature extremes.
