

Samsung Impression

The Samsung Impression has what's next for texters! This vast vibration-response touchscreen is stunningly bright and clear thanks to new AMOLED technology. The touchscreen interface helps you browse the Web and access applications quickly. Access full html-based Web sites and services so you can surf, search, and shop on the Internet while BLUETOOTH® connects you wirelessly to headsets and car receivers, and allows you to transfer files between phones and PCs. And tucked away in this surprisingly thin phone? A full slide-out keyboard. The Impression is an easy-to-use, texting machine with full text, picture, video, and IM support. Your text life just went into overdrive.
