

USBConnect Shockwave

Globetrotting digital nomads can depend on AT&T USBConnect Shockwave for secure Internet roaming worldwide. This second generation AirCard modem for HSPA+ network supports speeds of up to 21.1 Mbps download and 5.76 Mbps upload. Along with the modem is Sierra Wireless AirCard Watcher™ software which makes life simple. Get online fast in a single click and browse effortlessly even when conditions are less than optimal with Internet Explorer performance boosts of up to 50 percent.

Key Features:

- Access to the fastest wireless download speeds available, with up to 21.1 Mbps downlink and up to 5.76 Mbps uplink
- New industrial design and performance improvements
- Global roaming capabilities
- microSD™ slot
- Sierra Wireless AirCard automatic software installation

Key Benefits:

- Supports latest high bandwidth applications including video, gaming and graphics
- Compact and rugged 'no worries' USB design for life on the road
- Proven reliability and performance from Sierra Wireless
- Supports Windows 7 and Mac OS
- Plug-and-play and single click installation gets users up and running quickly
- Store and share more with built-in microSD slot

Dimensions

Weight: 1.06 ounces

Size (inches): 2.6 x 1.02 x .51

Memory

Expandable memory storage up to 32GB

Memory format microSD(TM)

Wireless Technology

GSM/GPRS 850/900/1800/1900 MHz

3G UMTS/HSDPA 4G* speeds

HSPA+ with enhanced backhaul in limited areas.

EDGE high speed data network

Features

Interface type- Plug-and-Play USB device

Connectivity technology- Wireless

Max Transfer Rate- Certified for HSPA+ network technology

Cellular Enhancement Protocol- UMTS/HSDPA/HSUPA/HSPA+

Antenna and External Antenna port

Supported OS- Microsoft® Windows® 7, Vista, XP SP3, Apple® Mac® OS (v10.4 or later)
